# CAPE GIRARDEAU DOCTOR NAMED TOP 10 IN STATE

*Regional Brain and Spine Celebrates Dr. Tolentino  
Being Named A Top Doctor in Missouri*

**CAPE GIRARDEAU, MO. – June 23, 2014** – [Regional Brain & Spine](#) (RBS), a leading neurosurgical, pain management and physical medicine and rehabilitation practice is proud to announce [Paul Tolentino, MD, PhD, FACS'](#) recent inclusion as one of Vitals.com's 2014 top 10 doctors in Missouri.

"Having this honor is an unexpected privilege. As with most doctors, I practice medicine to help people live better lives, having this honor bestowed upon me is quite humbling," said Dr. Tolentino, a board certified neurosurgeon, who has been practicing at RBS for the past 10 years. Prior to joining RBS, Dr. Tolentino performed his residency in Neurosurgery at the University of Florida, Gainesville and received his medical degree and doctorate at Harvard University.

Each year, Vitals reviews hundreds of thousands of online patient experience reports which rank doctors on several components of care including: bedside manner, doctor-patient interaction and the doctor's follow-up with patients.

"I've always strived to give my patients the care they deserve and treat them in the same way I'd want to be treated, listening to their concerns and properly diagnosing and treating their medical issues" said Dr. Tolentino. "Our core focus is to provide our patients with the best care possible and having practitioners like Dr. Tolentino on our team makes that possible, said Kevin Vaught, MD, FACS, CIME and founding partner of Regional Brain and Spine.
